### CLARESHOLM LOCAL NEWS

Miss Peet is visiting friends at Pentton, B. C.

Mrs. Geo. Simpson and daughter are holidaying at Banff.

Born, in British Columbia, on July 29th, to Mr. and Mrs. Frank Tetters, a daughter.

Miss Jean Stewart, of Chatham, Ontario, is here visiting her cousin Miss Atkins.

Mr. Sim, assistant principal of the school, returned on Thursday night with his bride.

Mr. and Mrs. McKinney and son Willard have returned from their holiday trip to Gull Lake.

E. C. Payne, of Drumheller, formerly one of the proprietors of The Review, is here visiting his father-in-law, Mr. McAlister.

Mrs. Dr. McMillan and daughters are spending their holidays camping in the hills, with Dr. D. D. McMillan's family of Granum.

Mr. and Mrs. W. E. Atkinson and Mr. and Mrs. Oliver Musley have returned from their auto trip to coast points. They report having greatly enjoyed the trip.

Mr. and Mrs. Locke returned on Thursday from their vacation. Mr. Locke will conduct the union service at the Presbyterian church next Sunday morning and at the Methodist church in the evening.

Sam Flitton, brother of Geo. T. Flitton of this district, was struck by lightning on August 2nd and instantly killed, near Idaho Falls. He was driving a heifer at the time. Two of the horses were killed. Other men near were knocked down by the bolt but have recovered. The deceased leaves a wife and five children.

Harvest is in full swing in this district. The estimated yield of wheat is now higher than it was two weeks ago. It is now believed that the average on summer fallow will be fully fifteen bushels to the acre. Here and there a piece of spring plowing will be nearly as good as that on summer fallow, though the average of spring plowing will be low.

The Boucher midway shows did not make a financial success of their tour of Canadian district fairs. Clareholm fair was the last one they played, having cancelled all future dates. They left on Thursday evening for the States. They were a tough aggregation and when their train pulled out nearly all of them had the appearance of being pretty well "uplified."

On Monday Corporal McLean of the Alberta Provincial Police raided the Penzloff place and found several gallons of contraband. He also found a home made still. The hired man, who it was claimed had made the liquor, got wind of the raid and made his escape. Penzloff was fined \$75.00 by Justice of the Peace Holmes for having the liquor on his premises.

### SUCCESSFUL FAIR

The Clareholm Fair held this week was the best ever held in the district. The attendance was good on the second day.

The exhibits of live stock and poultry were superior to any former showing. Grains, grasses and vegetables were splendid.

Dairy products, horticulture, domestic products and needlework exhibits were never better.

The Midway, while the concessionaires claimed it was not a financial success, nevertheless furnished the crowd a lot of entertainment.

The races were keenly contested and good time was made. The bucking contest was unusually good, as were some of the feature races.

The baseball game on Tuesday evening between Clareholm and Staveland was a good game and was won by Clareholm.

The Clareholm-Star Line game on Wednesday evening was also won by Clareholm though in the early innings Star Line looked like a sure winner.

A cold wind from the northeast accompanying a shower made it rather uncomfortable for both the ball players and spectators on Wednesday evening.

### Auto and Street Car Collide

South Vancouver, Aug. 8.—Major G. H. School of 649 31st avenue east, was knocked off a bicycle on main street about 9 a. m. today by auto B. C. 17213, which is alleged to have "cut in" between Major School and a B. C. E. R. street car, throwing the Major to the ground. The driver is reported to have proceeded on his way without stopping, according to a statement made to South Vancouver police. Major School was badly shaken up.—Vancouver Daily Province, August 8.

### Major Thought He Was Back at War

South Vancouver, Aug. 8.—Major G. H. School, 649 Thirty-first avenue east, was knocked off his bicycle this morning by an auto and had his face badly bruised. The accident happened on Main street at Thirtieth avenue. Major School was able to proceed to his home after being attended by a doctor. The collision took place near a passing street car and was so sudden that for the moment the major, who has been through the Boer war, the Mexican war and several others, thought he was back in Africa again, he said.—Vancouver Daily World, Aug. 8.

The Review learns that the auto and street car sent the major skyward, turned him and the bike a summersault, and he thinks if he had landed anywhere except on his head it would have killed him sure.

### School Fair Dates

Granum Sept. 13, Macleod Sept. 14, Picher Creek Sept. 15, Cowley Sept. 16, Clareholm Sept. 20, Staveland Sept. 21, Parkland Sept. 22, Cayley Sept. 23, High River Sept. 27, Okotoks Sept. 28, Quenestown Sept. 30, Foothills Oct. 1, Barons Oct. 4, Champion Oct. 5, Vulcan Oct. 6, Blackie Oct. 7.

## Canada's New Governor-General Sworn In

Quebec, Aug. 11.—With the air vibrating from the firing of guns from Quebec's ancient citadel, the sound of whistles from river craft, the ringing of bells and the applause of a large crowd, Lord Byng of Vimy, Canada's new governor-general, landed this morning at the King's Wharf, proceeded through the streets to the provincial legislative buildings and was there sworn in office with a pomp and impressiveness which probably have never before been equalled in the history of the Dominion.

To have baggage examined by customs officials before arrival at the port, and checked to its inland destination, is one of the most highly appreciated features of service on the Canadian Pacific liners arriving at Quebec. By putting customs officials and a staff of baggage checkers on board of the Empress of Britain, the company has shown its appreciation of the long and sometimes tedious delay otherwise experienced, and by the time that the ship docks at Quebec the special trains are in readiness there to convey passengers to their inland destinations, and through this service able to proceed immediately.

The remarkable success attending the development of Alberta College North, at Edmonton, is a matter of pride to those who have watched its growth since the organization of the college in 1903. During the eighteen preceding years over 15,000 students have received instruction in the various branches of higher education. During the past year approximately 1,500 were on the roll, and the average attendance for the past seven years has more than doubled, this being the largest attendance of any college in Canada where similar work is being done.

While the mental culture of its students is of course an essential consideration, very strong emphasis is placed on the development of true character, and the

importance of positive Christian influences. The college is undermanned, the students being allowed to attend the church to which they or their families are affiliated. Residential accommodation is provided for both sexes, with adequate supervision by college officials, without unnecessary and burdensome restrictions. Suitable provision is made in cases of illness. Nothing is overlooked in the desire to maintain a refined and healthful atmosphere. Every student is encouraged to take part in some branch of physical culture, and ample athletic facilities are provided. The college year begins on September 1st, and extends to June 30th.

## 5000 Facts About Canada

The annual publication, "5000 Facts About Canada," is a gold mine of information about the Dominion that no Canadian can afford to be without, and its popularity is steadily growing. The 1921 edition is now out and may be had from leading news-dealers or from the Canadian Facts Publishing Co., 588 Huron street, Toronto, for 50c per copy. Its compiler, Frank Yeaghs, is rendering a public service in this making available, in accessible and condensed form, under fifty chapter headings, ranging from Agriculture to the Yukon, the story of Canada in a nutshell. It is a revelation of the wonderful wealth and growth of the country, and is, as well, a fine advertisement of the Dominion. Governments, Banks, Boards of Trade and big financial and industrial concerns use hundreds of copies. It is moreover an excellent booklet to send to friends abroad, as a unique cyclopedia of Canada.

## Camping in Comfort

All the comforts of camping, with none of the drawbacks of the primitive method, can be enjoyed during a visit to one of the Canadian Pacific camps located on Lake Wapiti (Hector station) near Lake Louise or Lake Windermere B. C.

There appears to be some misapprehension as to these camps, for they do not consist of tents, but of log or rustic cabins for sleeping quarters, with a central club house containing combination dining and living room and necessary kitchen facilities.

These gas accumulations in each camp for fifty people, and the locations are ideal for anyone

wishing to enjoy a quiet holiday in the great outdoors, where hiking, riding, fishing, boating, etc., can be indulged in to the heart's desire.

**IMPERIAL Polarine MOTOR OILS**

**Keeps Motors Smooth Running**

Quality maintains economy. You may pay less "per gallon" for other lubricating oils but you get much lubrication "per dollar" when you buy Imperial Polarine Motor Oil.

USERS of Imperial Polarine Motor Oils enjoy a singular freedom from engine trouble, which is at once a source of profit and pleasure to them. Every bearing and rubbing surface is cushioned with an unbreakable oil film which reduces friction and minimizes wear. Good compression is also maintained, saving both fuel and oil and increasing power.

Lessened repair bills, lower upkeep costs, better satisfaction and longer service from your car follow the use of Imperial Polarine Motor Oils.

Consult our Chart of Recommendations for the grade of Imperial Polarine best suited to your motor. See Chart at your dealers or write to 56 Church Street for "Automotive Lubrication," a booklet which contains the Chart and other valuable information.

**IMPERIAL OIL LIMITED**  
 Branches in all Cities

FOR A CLEAN EFFICIENT MOTOR

The crank case of your motor should be drained, cleaned and refilled with fresh Imperial Polarine every 1,000 miles or less. Dealers who display this sign give expert crank case cleaning service, using Imperial Flushing Oil, a scientific cleanser, agent which removes all dirt, grit and impurities, which are so harmful to your engine. It will pay you well to employ Imperial Polarine Crank Case Service today.

## Montreal as an Immigration Centre

**The Empress of Britain**

The Empress of Britain, one of the big Immigration Liners of the Atlantic on the St. Lawrence Route. On her last voyage she brought 800 settlers to Canada, most of them bound for the West.

Montreal is one of Canada's chief immigration centres.

While the chief ports of disembarkation are Halifax and St. John in winter and Quebec in summer, a large proportion of the total arrivals reach Montreal on their way west or for redistribution, where many stay off at that city in order to settle in Quebec province.

Evidence of its being a busy immigration centre are seen at the wharves as well as the railway stations. Come with me to the Canadian Pacific Ocean to arrive dock. The Melita has just come in at an hour when the city has hardly awakened. Soon after the big steamer line up at the wharf—and remember that she sailed up a river for eight hundred miles from the open sea—all is bustle and excitement. For the docking of a transatlantic vessel is always an important event. Gang planks are lowered, smoke engines being busy along as they hoist the endless number of trunks from the deep holds, and the passengers land one by one and another.

Among the hundreds of passengers are those who may be regarded as newcomers and as prospective settlers in a new land. The third-class passengers having left the ship at Quebec and arriving the Montreal arrivals are many who belong to the class of household workers, where Canadian homes are waiting. As they have been second class on board by a C. E. B. steamer, so as

and there are immigration officials of both sexes; and port chaplains of the churches, priests and sisters from the Roman Catholic Church, Y. W. C. A. secretaries, Jewish missionaries and many another ready to render help. The service these voluntary workers give is of the highest value and is greatly appreciated.

With baggage and luggage arranged alphabetically in the long freight shed, it is an easy matter to identify and check the mountains of trunks and bags as they are piled high in the transport wagons for the railway station.

Let us go to the Windsor Street station of the Canadian Pacific Railway. It is always a busy centre, but after the arrival of several ocean boats it is doubly thronged. No yet such is the excellent system in vogue that there is no confusion, and no one can go astray in finding the right train. The workers are busy at the docks here, as they find that the docks are here, as they find that the docks are here, as they find that the docks are here.

main in the city for a few days. The foreigners are in one room, and the English-speaking ones in another; those who are passing through Canada on their way to the United States have special provision made for them, while yet another huge apartment is devoted to the Chinese in bond.

Montreal does a great deal for the new arrivals. A sample is Dorchester House, a fine home for immigrant girls where they are guided in every way and assisted in finding suitable employment. Hundreds take advantage of this excellent institution, which is maintained non-profitably by several Protestant denominations, also working in harmony with the nearby Y. W. C. A.

There is also the Dominion Immigration Hall, adjoining the Windsor Street Station, a four-story building where immigrant arrivals can be kept for a short time free of charge, where delinquents are treated as in a court, where hospital service of a first aid nature is given, and where a good number can be accommodated in dormitories and cots.

## Province of Alberta Co-operative Credit Societies

The Provincial Government has provided legislation designed to encourage the co-operation of farmers by adequate credit, longer term loans, lower interest rates, cash prices for purchases, saving of time and labour, and an improved community spirit.

## Increased Farm Credit depends upon—

- (1) Greater reliability of loans.
- (2) Certainty of repayment.
- (3) Adequate powers of security.

The Alberta Co-operative Credit Act, in its amended form, grants exceptional powers in the matter of taking necessary security and thus repayment can be safely provided for.

## Organization of a Society requires—

1. Fifteen signatures to petition to incorporate.

## II. Thirty members in good standing to start operations.

- III. Each member to subscribe for \$100 stock on which he pays twenty per cent in cash and twenty per cent each year thereafter.

## IV. Affairs controlled by Board of Directors.

## V. Limited liability.

GUARANTEES of Municipal District and Government are given in accordance with terms of Act.

IF YOU ARE INTERESTED AND DESIRE FULLER INFORMATION COMMUNICATE WITH—

HON. C. R. MITCHELL,  
 Provincial Treasurer

W. M. SELLER,  
 Supervisor Co-operative Credit Act,  
 Parliament Buildings, Edmonton.

## Claresholm Local News

R. L. Redfern was shaking  
hands with old friends in town  
this week.

There was a good attendance  
at the Golf Club dance on Wed-  
nesday night. It was a very suc-  
cessful social event.

Geo. Bliton who returned on  
Wednesday from attending the  
funeral of his brother Sam at  
Edmonton, reports the crowd  
good in that part of the state.

The film company have sent  
the Douglas Fairbanks film "The  
Mollycoddle" to the Rex for this  
week end instead of the Mary  
Pickford film that was expected,  
which however will come on  
August 26-27.

The Central Creameries Lim-  
ited, of Calgary, have opened a  
cream buying station in Clare-  
sholm. Mrs. C. C. Water-  
street has been appointed local  
agent, with office in the Milnes  
block, one door west of the tele-  
phone office.

Remember that to get the  
name of the wife, husband, son,  
daughter, father or mother of a  
person assessed upon the town  
assessment roll, included in the  
voters' list, application must be  
made to the town secretary-  
treasurer before the end of  
August.

Hail Storm North of Calgary

What is described as the worst  
hail storm in the history of Al-  
berta struck that district about 6  
o'clock Tuesday evening. Travel-  
ling from the northwest, it cut  
a swath nearly 20 miles wide in  
certain sections, damaging crops

in its path. Windows were broken,  
shingles split and houses of  
poorly killed and gardens de-  
stroyed. The loss to the crops  
which were just ready for cut-  
ting will run into many thou-  
sands of dollars, as they were in  
most instances completely de-  
stroyed.

### BUSINESS LOCALS

All kinds of plain and fancy  
sewing, binding and embroidery.  
Prices reasonable.—Mrs. A. Star-  
gson, Phone 135.

Lost—On August 7, between  
Clareholme and the Leader farm,  
an auto tire and tire holder.  
Finder please return to Win-  
Barre, Clareholme.

For Sale or will trade for  
cattle—the 28 horse American  
Aired, steam engine and 3000  
separator, tender and wagon  
cook and bunk cars; also one  
large gasoline tank. Write T. C.  
Milnes, Agent for Executors,  
Francis Downs Estate, Clare-  
sholm, Alberta.

### POUND NOTICE

To Whom the Same May Concern  
Notice is hereby given under  
Section 2 of the Pound District  
Ordinance that I, red and white-  
cock branded, on right ribs,  
blotched brand on left shoulder,  
punctured tag, was impounded  
in the pound kept by the under-  
signed on the N. E. quarter of  
section 16, township 12, range 25  
west of the 4th meridian, on July  
30th, 1921.

John Bush, Poundkeeper.

## Present Economic Waste

Why do prices of merchandise and commodities of all kinds remain so abnormally high despite the fact that the war demand is long since past and production is almost everywhere in excess of requirements? This is a question asked by hundreds of people. It is generally known that prices of raw materials have fallen, yet when one comes to buy the finished product into which these raw materials have been converted, the price added is practically the same as during the war. What is the reason? The answer may be largely expressed in one word: Waste.

It is universally recognized that the prevailing high freight rates operate directly to increase the price of all goods, but by increasing the price of the raw materials and secondly by still higher charges on the finished article. One of the most serious causes for this waste is the fact that the waste is not properly utilized.

Before the United States Government took over the railways of that country for operation during the war, the comparatively simple job of changing a nozzle tip in the front end of a locomotive could be done by a machinist, or a machinist and helper, or even a handy man alone. Today under the present classification rates governing the labor unions, in order to change a nozzle tip on a locomotive, the engine driver and his helper to open the door, because that is boiler-makers' work; to call a pipe man and his helper to remove the boiler pipe, because that is pipe-maker's work; and to call a machinist and his helper to remove the nozzle, because this is the work of a machinist; also for the same reason for the employment for putting in the new tip.

Prior to Federal control of the railways in the United States it was not an uncommon practice for a machinist and his helper to take care of all of the work necessary on an electric locomotive at a locomotive shop. Under the McAdoo Agreement the work is now so classified as to distribute the same among three crafts, namely, machinists, sheet metal workers and electricians. If each of the mechanics performing the work has a helper, this has the effect of six men performing a piece of work that could be and was formerly taken care of by two men.

Under present rules where arrivals of trains require the service of men employees two hours in the morning and two hours in the evening, say 8 a.m. to 10 a.m. and 6 p.m. to 8 p.m., railroads now have to employ two shifts of eight hours each, or sixteen hours service where there is only four hours' actual work. Furthermore, where two shifts are worked the starting time must be between 7 a.m. and 8 a.m. if the arrival of a train or other operating conditions require a man on duty at 6 a.m. he must be paid for five hours each day in addition to regular eight-hour day.

The following illustrates the method of paying a wrecking crew under the McAdoo Agreement when performing such service: A wrecking crew composed of six men leaves its home terminal at 8 a.m., goes a distance of 50 miles to clear up a wreck; work of clearing main track is completed at 6 p.m.; crew lies up for sleep and return from 6 p.m. to 7 a.m. next morning (wrecking outfit is equipped with sleeping facilities); resume duty 7 a.m.; pick up wreck and arrive at home terminal 2 p.m. Under the National Agreement it is necessary to pay the entire crew continuously for the first 24 hours from the time they leave their home terminal, computed as follows:

From 8 a.m. to 4 p.m., eight hours straight time; 4 p.m. to 12 midnight, eight hours of time and one-half; or 12 hours; 12 midnight to 8 a.m., eight hours at double time; or 16 hours; 8 a.m. to 2 p.m., six hours at straight time. Total of 48 hours paid, although crew actually performed service from 12 noon to 6 p.m. first day, six hours, and from 7 a.m. to 10 a.m. second day, three hours. It will be noted actual time worked during the entire period was nine hours; balance of the time was consumed in waiting and travelling, and it will be further noted the crew was released entirely from 6 p.m. to 7 a.m., during which time they were paid at time and one-half and double time while actually off duty and sleeping.

Scores of other instances could be given, all of which are substantiated by an exhaustive inquiry into the subject, could be given. The above however goes to show the enormous economic waste taking place daily in connection with railway work, which waste must be paid for, and is being paid for, by the people in excessive freight and passenger rates. These high rates are reflected again in the unduly high cost of goods of all kinds.

The truth of the matter is that in paying the excessively high rates which the railway companies find it necessary to charge, the people are paying, not for services rendered, but to cover vicious economic waste, paying men for work they do not do and for services which are not performed. The whole system is wrong and is doing even greater injury to those who fancy they are profiting by it because of the excessive selfishness and downright dishonesty which finds expression in accepting pay for work never performed.

## Selling Shoes By Pound

French Government Doing It To Get Rid of Stock.

Selling boots by the pound may seem strange, but it is what the French Government is up against in the liquidation of the two largest French army camps. More than \$200,000 worth of the stoutest footgear is going begging because someone put over a lot of fresh skins which couldn't be worn.

The boots are made of the best leather, but as they would require cutting in order to use even the

soles or heels, the offers received were all too small, and it was decided to sell by weight.

As a veritable excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

The vibrations of sound caused by spoken words now can be recorded by means of a clever invention.

Near Bingen, in Germany, is a famous echo which will toss a sound to and fro no less than seventy times.

**If coffee, which is known to contain caffeine disturbs your health and comfort—drink INSTANT POSTUM There's a Reason**

## The British Way

Upholds Officials Who Speak For Nation Without Authorization.

Speaking of the reprinting administered to Rear-Admiral Sims by the United States Secretary of the Navy for his denunciation of American Sinn Féiners and of utterances made by Admiral McGeorge regarding the United States attitude towards France, the New York Times points out, by way of contrast, that the British Government does not check up its officials, even when they presume to speak for the nation without direct authorization. The Times recalls that in Cuba a British consul who threw the British flag over Americans facing a firing squad was not reprimanded. Nor was Captain Clanchette reprimanded in Manila Bay when he intervened between Admiral Dewey and the German squadron, virtually challenging Germany to war if an attack was made upon the American ships.

## ADVICE FOR BACKACHE

When stooping, harts, when lifting and bending causes distress that's the time to rub in lots of "Nervine." Usually, aches of this kind are caused by muscular, rheumatic or relaxant pains. Thousands of homes rely on good Old Nervine for relief of backache, neuralgia, and external muscular pains. 25-cent bottles for sale everywhere.

## Red, White and Blue Corn

Chicago Professor Produced Colored Kernels By Grafting.

After decades of experiment, Under the Professor William L. Woodburn, of Northwestern University, has produced an ear of corn containing red, white and blue kernels.

Professor Woodburn asserted he soon would be able to perfect his corn so that the rows of kernels would show solid bands of red, white and blue. The colored corn was produced by crossing red and white ears with blue and white ears.

To Asthma Sufferers, Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking ship. It gives you life and hope by relieving his trouble—something he has come to believe is permanent. Its benefit is too evident to be questioned. It is the best remedy for asthma on the market. If you suffer from asthma get this time-tested remedy and help like thousands of others.

If the whole of the watery vapor in the atmosphere were to fall at once in the form of rain it would not, according to experts, cover the entire surface of the earth to a depth of more than five inches.

## CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months, and the more prompt action is taken the more one may soon be beyond its grasp. Owen Tablets are a safe medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dread summer complaints. Consult Dr. Williams' Pink Pills for Pale People, South Bay, Ont., says: "I feel baby's Owen Tablets saved the life of our baby when she had cholera infantum, and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Canadian Receives French Medal

Corporal Rescued Woman From Well Nineteen Feet Deep.

Corporal David Mills, London, a former member of the British Air Force, has been awarded a medal by the "Foundation Committee" of Paris. In 1918 when the English army were at Frolois bombing the Rhine cities, Mills one night saw a number of excited people standing at a farm gate. He learned that a woman had fallen 19 feet into a well filled with water 50 feet deep. Since then he has brought the woman to the surface though he had been told it meant death to go into the shaft and that she was doubtless dead before he had arrived.

Output of Zinc.

The output of zinc from Canadian mines has more than quadrupled since 1916, according to the Mines Branch. The output in 1916 was 2,665 tons whilst by 1919 it had jumped to 11,005 tons.

For the first time on record there is an ice famine in Iceland, due to the mild winter and lack of manufacturing facilities.

In nearly one-half the gas plants in the country gas is manufactured from oil.

## Pies You'll Like

BY LORETTA C. LYNCH

An Acknowledged Expert in All Matters Pertaining to Household Management.

Since pie is classed among the real joys of life, if we are going to make it at all we should make it so it will be a pleasure to eat.

Pasty, soggy piecrust is very difficult to digest. And even well-baked bottom crust often affords suggestions by the soaking of the fresh fruit filling into it. For this reason such pie should be baked in a glass earthenware dish, with an upper crust only.

The sweetened fruit should be put in the dish. Then a half-inch strip of pastry is placed over the rim of the pie plate. The strip is moistened and the crust placed over the top. The strip of pastry and the upper crust are pressed together, then the edges are trimmed. The upper crust should be caught in several places to allow for the escape of steam.

A simple and satisfactory crust is made by sifting together one and one-fourth measuring cups of flour with one level teaspoon of baking powder and one-fourth teaspoon of salt. Add just enough water to hold the ingredients together. Chill well. A piecrust should be handled just as little as possible. The top crust may be decorated with a fork, milk or milk mixed with yolk of egg.

Here are some recipes readers have been asking for.

**Lemon Pie.**

One-half cup flour, 1 cup sugar, 2 cups boiling water, juice and rind of one lemon, 1 tablespoonful of butter, 2 egg yolks, 14 teaspoonful salt.

**Meringue.**

Two egg whites, 2 tablespoonfuls powdered sugar.

Mix the sugar and flour together, add the boiling water and cook on the back of the range or over an asbestos mat for fifteen minutes. Add the other ingredients of the filling and cook at a simmering temperature until the egg yolks thicken. Cool and place in a baked crust. Cover with the meringue made by whipping the egg whites until stiff and then gradually beating in the sugar. Return to the oven a few moments until the meringue is a light brown. Meringue burns easily.

**Rhubarb Pie.**

Two cups of rhubarb cut into small pieces, 1 egg, 1 cup sugar, 4 tablespoonfuls sugar, pinch of salt, lemon rind.

Mix sugar, salt, lemon rind and flour together; beat the egg. Add the rhubarb and flour mixture to the egg. Bake with a top crust only, preferably in individual pie dishes.

To all fruit berry pie, it is well to mix 3 to 4 level tablespoonfuls of flour with the sugar. This thickens the juice. If berry pie is used in new crusts, paper tubes or tins, the incisions allow the steam to escape readily and prevent the juices from seeping out.

The juice of a can of fruit may be thickened with cornstarch or flour and the whole turned into a baked crust. The top is then spread with a meringue and browned. A busy housekeeper might have several empty crusts on hand to use with her fruit at a moment's notice. Crusts are baked on the outside of the inverted pie plate. Small tart shell may be baked on the outside of an inverted muffin or gem pan.

## Will Attempt Trans-Pacific Flight

Lieut. P. J. Parer Announces Plan at Sydney, N.S.W.

An aeroplane flight across the Pacific Ocean is to be attempted now, it was announced recently by an Australian aviator, Lieut. P. J. Parer, who some time ago flew from England to Sydney.

To raise fifteen thousand pounds to finance the trans-Pacific attempt, Lieut. Parer has started on an exhibition flight around Australia. It will be possible to follow a chain of islands from Australia two-thirds of the way across, but on the Canadian side of the ocean there will be a long stretch in which there is no land.

## Lucky He Took Wife's Advice At Time He Did, Says This Regina Man

"I was going down hill pretty fast when I began taking Tanlac, but I can say for this medicine that it turned me right round and put me back on the road to health," said William Lorna, 2124 McKay St., Regina.

"I suffered a great deal more from the after-effects of influenza than I did from the disease itself, as it left me in a run-down condition. My stomach was upset and I had a sick and depressed feeling most of the time. Nothing I ate agreed with me. My kidneys bothered me considerably and my back ached so that I could not bend over and straighten up again without suffering agony."

"It was a lucky day for me when my wife persuaded me to take Tanlac. It changed me all around in a

surprisingly short time. It gave me an appetite and put my stomach in perfect condition so that nothing I ate disagreed with me. My kidneys do not bother me any more and my back is entirely free from pain. I gained fifteen pounds in weight, too, which does me much good."

"Seeing what Tanlac did for me, dozens of our friends are taking it and they are just as enthusiastic as my wife and I are. We intend always to keep a bottle in the house so that if any of the family need building up we can give it to them at once."

"I feel that it is nothing but just to tell others about this medicine which does me much good."

Tanlac is sold by leading druggists everywhere.

## Prehistoric Monster Found At The Pas

Discovery Regarded as of Great Importance to Science.

A discovery of the fossilized remains of a prehistoric monster in the foothills of the Pasquill Hills near The Pas, is reported by Dr. Ellis, of the Dominion Geological Department. He found the bones disconnected but in alignment, measuring 42 feet in length. He is not prepared to state what kind of animal the remains belong to, but regards the discovery of great importance to science. The monster brought in 80 pounds of bones for shipment to Ottawa.

Something more than a century ago paper was so dear in England that butchers used to give their customers the meat wrapped up in a large vegetable leaf.

## The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication.

## WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Adds 500% to Gear Life. Thousands of tests have been conducted by Lubricating experts to demonstrate the relative efficiency of various lubricants. The results of these tests conducted over years, has placed the choice of eastern leading manufacturers. These manufacturers include:

The largest builder of cars in the world; The largest builder of trucks in the world; The largest builder of axes in the world; The largest builder of worm gears in the world.

Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acids

They are proof against heat and cannot break down or seep out. In the Panama Canal Emergency Days, six million pounds rest on an unbroken film of WHITMORE'S.

AN EXHAUSTIVE TEST. U.S. Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

WHEN WOMAN HITS THE TRAIL IN THE CANADIAN ROCKIES

The outdoor girl—and her name is legion—knows almost as much about the trails, camps, mountains and fishing of the Canadian Pacific Rockies as mere men. Every summer Banff and Lake Louise are thronged with members of the fair sex who hit the trail to view the beauties of lakes and streams where the trout hide, catch mountain and camp for days near to Nature's heart's safeguarded to expert guides they learn to find streams, fish and shoot, while there are real Swiss guides from the

Alps overseas to show the way to the summits of majestic mountains. When they ride, climb and camp, they wear riding breeches just as well as their brothers, husbands or sweethearts and nobody thinks anything about it—not even Mrs. Grindly, because she has been wearing the shortest of short skirts herself to be in the mode. The war changed many things. It gave women the vote and made breeches for women conventional.

Betty appeals to the outdoor life, and she loves the Canadian Rockies which rise a mile or more above Lake Louise and Banff because they are unexcelled in beauty and majesty. The Alpine Club of Canada has many women members, the most expert of whom do not hesitate to attempt the conquest of any peak men have ascended. In 1901 Mount Assiniboine was ascended for the first time by Sir James Outram. Three years later Miss Gertrude Bonham, an English girl, was the first of her sex to reach the summit of this great peak, the Matterhorn of the Canadian Rockies. Both were assisted by Swiss guides. Several made the ascent during the camp of the Alpine Club last summer.
